

Job description:

ERP Developer - proALPHA[®]

We are software company based in Zlín, Czech Republic being more than 25 years on the IT market. Our company is a long time development partner of the ERP system proALPHA[®] on the European market and our customers come mainly from Germany, Austria, Switzerland, Czech Republic and Slovak Republic.

proALPHA[®] is full-blown ERP system coming from Germany. It features accuracy and reliability in controlling of machinery and plastic discrete production and follow-up processes.

Since 2002, we are exclusive partner of proALPHA[®] for Czech and Slovak market. We produce the official Localized version of proALPHA[®] for these two markets.

For our successful proALPHA[®] team, we are looking for developers with affinity to consulting who will be responsible for dedicated proALPHA[®] projects. The work comprises initial implementation of the system as well as further maintenance and realization of customer enhancements in modules like Production, Management of material, Sales, Procurement, Planning, Accounting and Controlling, ...

Required skills:

- Passionate programmers with affinity to Dataprocessing
- Willing to learn PROGRESS OpenEdge environment - www.progress.com/openedge/platform
- Customer oriented approach to problems
- Independence in problem solving, team spirit in communication
- Communicative use of German or English language.

Advantage:

everything else, you already know 😊 - like:

- Knowledge of production processes
- Knowledge of PROGRESS
- Experience in international projects

We offer:

- Full-time job in the city of Zlín, Czech Republic
- Background of stable, family company, which is in the business more than 25 years
- Individual approach, loyalty
- Stable team, long-time perspective (some of our colleagues are more than 20 years with us)
- Possibility to extend professional know-how, business trips abroad
- Step-by-step introduction into a machinery control system modules and their integration into the main product.
- Top IT equipment (notebooks, phones, ...) even for personal use
- Flexible working hours, infinite sick-days policy
- possibility to work from home after a period of ramp-up in Zlín (approx. 2-3years)
- Meal Vouchers in CZ, Language lessons in CZ (German or English language)
- Free coffee, tea and other beverages on the workplace
- Above-the-IT-average compensation based on results

If you are interested in knowing more or joining the proALPHA[®] team, pls. send your CV in English to the martin.sebesta@spc.cz or call **+420 604 20 11 62**.

Martin Šebesta, CEO of SPC solutions, spol. s r.o.
